Dear Sir or Madam

Over the past 16 years, Medical Biomechanics has been providing legal medicine services to defense and plaintiff attorneys and insurance adjustors. Personal injury consultations have been provided nationally. MBI specializes in performing **medical reviews by physicians, biomechanical evaluations,** and providing **expert testimony**. I am the physician Medical Director of MBI with 16 years legal medicine experience at this company. My efforts have been directed toward **personal injury** cases including motor vehicle and equipment accidents. A primary focus is **injury causation** and defining **reasonable and necessary medical care**. I am also intensively involved in evaluating **medical malpractice, product liability, medical toxicology, occupational, pharmaceutical,** and serious **food poisoning** reported injuries.

**Comprehensive medical and bioengineering support are available directly to claims administrators and legal counsel in preparation for settlement conferences, mediations, arbitrations, and trial.**

- ❑ In-house corporate hourly rate: \$150/hour.
- ❑ Locate prestigious medical specialists both regionally and nationally for definitive expert witness testimony. I have frequently served as the medical liaison between the experts and trial counsel.
- ❑ Develop supportive medical strategy for complicated cases in litigation wherein injury causation is highly controversial and disputed between the parties.
- ❑ Simplify intricate scientific information with the intention of sharpening the focus of trial counsel's overall litigation strategy.
- ❑ Evaluate the implications of medical opinions rendered by opposing experts.
- ❑ Identify key medical literature if appropriate to bolster expert opinions.
- ❑ Meet time sensitive deadlines including short-notice requests for locating experts and completing record reviews.
- ❑ Provide intensive medical support on behalf of motions for summary judgment, expert witness declarations with exhibits, and comprehensive briefs.
- ❑ Utilization review of reasonable and necessary medical services and fees.
- ❑ Enable the use of MBI's Apache server as a secure repository for the on-line review of voluminous records by multiple experts.

**MBI's website is [www.mbilegalmed.com](http://www.mbilegalmed.com).** Therein are representative listings of cases evaluated in personal injury and medical malpractice.

Thank you for your consideration.
